Installing the software and viewing the operating instructions

- Before installation, see "System requirements" at the upper right of this guide.
- Shut down all software currently active on Windows. Otherwise, installation may not be possible.
- Administrator authority is required for installation.
- If Wireless Manager mobile edition (henceforth abbreviated to "ME") 1.0, 2.0 or 3.0 has been installed, uninstall it. (See the bottom left of this guide)

1 Set the supplied CD-ROM in the CD or DVD drive.

- The installer starts up automatically and the screen at right appears.
- If the installer does not start up automatically, double-click [EasyInstall] → [Easy_Inst.exe] in the CD-ROM.

2 Click a software or function name button.

[Wireless Manager ME 4.5] :

This software is used to send screen images from a computer to the projector via a wireless or wired LAN. When installing this software, follow the instructions on the screen.

[Installation Free Set Up] :

Although some are impossible, you can use the basic functions of Wireless Manager ME 4.5 without installing it in the computer.

When using Wireless Manager ME 4.5 without copying the program

Click [Direct CD-ROM Startup] to launch Wireless Manager ME 4.5.

When copying Wireless Manager ME 4.5

- (1) Click [Other Media Source Startup, Make Copy Here].
- (2) Select the destination to save, and click [OK].
- (3) Double-click the Wireless Manager ME 4.5 icon (WMstart.exe) in the destination to launch Wireless Manager ME 4.5.

[Operating Instructions] :

The "Network Function Edition for Windows" and "Secondary Display Transmission Function Advanced Operation" documents are stored in the supplied CD-ROM in PDF file form. To see them, Adobe Reader (URL: <http://www.adobe.com/>) is required. Click on a desired document name on the displayed list.

System requirements

OS: Microsoft Windows 2000 Professional/XP Home Edition/XP Professional
Microsoft Windows Vista™ Ultimate 32 bit/Vista™ Business 32 bit
Microsoft Windows Vista™ Home Premium 32 bit/Vista™ Home Basic 32 bit

Wireless Manager ME 4.5 can be installed with Windows Vista™, but the secondary display transmission function cannot be used.

CPU: Intel® Pentium® III 600 MHz or faster or compatible processor
(800 MHz or faster is recommended when using live mode)

RAM: 256 MB or more

Empty hard disk capacity: 60 MB or more

Web browser: Internet Explorer 6.0 or newer
Netscape Communicator 7.0 or newer

Hardware conditions: CD or DVD drive

Wireless or wired LAN function

Wireless LAN: An 802.11 b/g built-in wireless LAN system or an 802.11 b/g wireless LAN adaptor must be installed and running properly. However, some 802.11 b/g wireless LAN may not allow connection to 802.11 g projectors.

When your computer has no built-in wireless LAN function, a wireless LAN card driver must be installed and recognized properly.

(Wireless LAN cards that system operation capabilities are confirmed : Access <http://panasonic.co.jp/pavc/global/projector/>)

If Network Bridge in Windows XP or firewall in Windows XP SP1 or later is enabled, this will prevent a wireless connection. For details, see "Network Function Edition for Windows" in the supplied CD-ROM.

Wired LAN: A built-in LAN terminal (10BASE-T, 100BASE-TX or 1000BASE-T) or a wired LAN adaptor must be running properly.

A LAN cable to connect must be compatible with category 5 or above (category 5e or above when using 1000BASE-T). Consult your system administrator when selecting a straight or crossover type.

Other: When security (firewall) software and utilities for network cards are installed, these may prevent connection of the projector.

- Note that operation is not guaranteed when used with system environments other than the above or on homemade computers.
- Operation is not guaranteed for all computers that meet the above conditions.
- Operation is not guaranteed for all wireless LAN cards and built-in wireless LAN adaptors.
- It is forbidden to take the projector outside the country or region where you purchased it, so use it only in the said country or region. Also, note that depending on countries or regions there are restrictions on the channels and frequencies at which you can use the wireless LAN.
- You must agree to the "Software Licensing Agreement" to use the supplied software. Please read it carefully when it is displayed during installation.
