Chrome on Ubuntu OWA fix

Chrome will not allow you to use the full OWA without tweaking described below.

Create a Chrome shortcut, if one doesn't exist. Right click it and choose properties. In the Command field copy and paste the line below.

/opt/google/chrome/google-chrome --user-agent="Mozilla/5.0 (Windows; U; Windows NT 5.2; en-US) AppleWebKit/534.4 (KHTML, like Gecko) Chrome/6.0.481.0 Safari/534.4"

Click close

😣 Launcher Properties		
ing i	Type:	Application v
e e	Name:	Google Chrome
<	Command:	/opt/google/chrome/goc Browse
	Comment:	Access the Internet
Help		Revert Close

The next time you open the shortcut and go to mail.anl.gov you will have the ability to use the full version of OWA.
